There are 19 film references hidden across the town centre; use the map to give you rough guidance to their locations - one member of the cast of each is included here to help you out a little. All signage is visible from the street... except the one in Waterstones! Write the name of the film as the answer. Where the film is part of a franchise, any title from that franchise will be deemed correct.

Please return your completed sheet to either Cousin Norman's or Chippenham Museum during opening hours.
